

# Release notes TWFS1-TWFS2

These release notes are applicable to the following modules:

- 2FS10

---

**Software version** 0606  
**Hardware version** 0100, 0200  
**Platform** TWFS2  
**Date** 09-12-2010  
**Filename** 2FS10-0100to0200-0606-Service.spf

Remark: This software version is for ADD9450120010 and ADD9450120011 only!

Ported the 2FS10 code to a new platform.

---

**Software version** 0505  
**Hardware version** 0100  
**Platform** TWFS1  
**Date** 09-12-2010  
**Filename** 2FS10-0100-0505-service.spf

Remark: This software version is for ADD9450100010 and ADD9450100001 only!

Changed backup relay control timing.

---

**Software version** 0304  
**Hardware version** 0100  
**Platform** TWFS1  
**Date** 13-01-2009  
**Filename** 2FS10-0100-0304-service.spf

Added AutoBackupRef reference selection. When applying 2 Blackburst reference signals of the same format on an SFR18 or SFR08 frame, and one is lost, the ref selection will automatically switch over to the other ref.

---

**Software version** 0204  
**Hardware version** 0100  
**Platform** TWFS1  
**Date** 24-07-2006  
**Filename** 2FS10-0100-0204-service.spf

Output SDI signals are synchronous to the Ref when running in Synchronize mode.

---

**Software version** 0203  
**Hardware version** 0100  
**Platform** TWFS1  
**Date** 01-05-2006  
**Filename** 2FS10-0100-0203-service.spf

fixed: disturbed embedded audio

---

**Software version** 0202  
**Hardware version** 0100  
**Platform** TWFS1  
**Date** 17-02-2006  
**Filename** 2FS10-0100-0202-service.spf

- Transparent for audio on line 6

---

**Software version** 0101  
**Hardware version** 0100  
**Platform** TWFS1  
**Date** 06-02-2006  
**Filename** 2FS10-0100-0101-service.spf

First release
