

Release notes ADL24

These release notes are applicable to the following modules:

- ADC20

Software version 0504
Hardware version 0104, 0105, 0106
Platform ADL24
Date 21-05-2012
Filename ADC20-0104to0106-0504-service.spf

- Channel status bits set to 24 bit

Software version 0503
Hardware version 0104, 0105, 0106
Platform ADL24
Date 29-08-2006
Filename ADC20-0104to0106-0503-service.spf

- Fixed audio level of channel 1

Software version 0403
Hardware version 0104, 0105, 0106
Platform ADL24
Date 14-06-2006
Filename ADC20-0104to0106-0403-service.spf

- Added Tracking

Software version 0302
Hardware version 0104, 0105
Platform ADL24
Date 07-07-2004
Filename ADC20-0104to0106-0302-service.spf

- Added announcement filter

Software version 0202
Hardware version 0103
Platform ADL24
Date 11-03-2004
Filename ADC20-0104to0105-0202-service.spf

Soved: 2's complement wrap-around if audio signal reaches digital full-scale, or if analog input-level is too high

Software version 0201
Hardware version 0103
Platform ADL24
Date 28-11-2003
Filename ADC20-0104to0105-0201-service.spf

Ready for new hardware
