## Quick Install Guide

---

SynView products will work only in conjunction with Cortex and Cerebrum version 1.13 and higher. In case of an older version please read and execute the steps below.

### Applies to

---

#### SynView related products

- **MGU200, MGG200, MGU100, MGG100, MNU100, MNG100**

#### Synapse® products

### Cortex Installation

---

- Install Cortex(Cortex Installation 1V12), available on Axon website;  
<http://www.axon.tv/EN/support/downloads/software>
- Get the zipped files from USB stick; Extract **Cortex MGU200.zip**
- Close the Cortex application
- Rename **Cortex.exe** in the Cortex root folder to Cortex.exe. In most cases this will be in the directory C:\Program Files (x86)\Axon Digital Design\Cortex
- Copy the **Cortex.exe** file and "Forms" directory from "Cortex MGU200" folder on USB, to root of the Cortex install; In most cases this will be in the directory C:\Program Files (x86)\Axon Digital Design\Cortex
- Copy files from **MGU200 CLF** folder to <root of Cortex install>/Forms/Device
- Now you can start Cortex to control the SynView2 card

### Expected roadmap for fix

---

Please consult Axon product management for this roadmap.
