

Release notes ASM10-ASM10,SYAS2

These release notes are applicable to the following modules:

- INS21

Software version 0807
Hardware version 0100, 0101, 0102, 0103, 0200, 0201, 0202
Platform ASM10,SYAS2
Date 22-05-2013
Filename INS21-0100to0202-0807-service.zip

Improved VBI transparency for CVBS (lines 7, 8 and 320 were distorted)

Software version 0707
Hardware version 0100, 0101, 0102, 0103, 0200, 0201, 0202
Platform ASM10,SYAS2
Date 14-10-2010
Filename INS21-0100to0202-0707-service.zip

- Minimized insertion delay from CVBS to SDI, as in INS400.
- CVBS input improvements.
- Supports unique serial numbers.

Software version 0606
Hardware version 0100, 0101, 0102, 0103, 0200
Platform ASM10,SYAS2
Date 01-12-2008
Filename INS21-0100to0200-0606-service.spf

Fixed VI_SDI_Pass; now VI is also passed in Field 2.

Software version 0605
Hardware version 0100, 0101, 0102, 0103, 0200
Platform ASM10,SYAS2
Date 07-10-2008
Filename INS21-0100to0200-0605-service.spf

Added VI_SDI_Pass option for passing through the chroma informatie of line 11 (SDI 625), from the sdi input (setting is independent of Chroma_Blank and F1_11)

Added End_VBI_F1 and End_VBI_F2, which ends de vbi decoding 1 line earlier
VBI normally ends in Field1 line 23 and for Field2 in line 336 (for PAL)
Set to -1 Line decodes line 22 or 335 like a normal active video line.

Software version 0504
Hardware version 0100, 0101, 0102, 0103, 0200
Platform ASM10,SYAS2
Date 24-01-2008
Filename INS21-0100to0200-0504-service.spf

- Changed control setting: Changed item "L23_Blank" into "Line23".
"Line23" has to following options: "Blank", "Transp", "CVBS". Option "CVBS" inserts line 23 from CVBS.

Software version 0403
Hardware version 0100, 0101, 0102, 0103
Platform ASM10
Date 06-12-2006
Filename INS21-0100to0103-0403-service.spf

- Renamed menu-item: 'Loss_Comp' to 'Loss_CVBS', and the setting 'Trp' to 'SDI'
- corrected functionality: L23_Blank, Chroma_Blank and Loss_CVBS.

Software version 0302
Hardware version 0100, 0101, 0102, 0103
Platform ASM10
Date 21-07-2006
Filename INS21-0100to0103-0302-service.spf

- Added Events

Software version 0201
Hardware version 0100, 0101, 0102, 0103
Platform ASM10
Date 06-07-2006
Filename INS21-0100to0103-0201-service.spf

- Enabled BPX relais

Software version 0101
Hardware version 0100, 0101, 0102, 0103
Platform ASM10
Date 26-04-2006
Filename INS21-0100to0103-0101-service.spf

First Release
